

New Builds

Hartup Construction – Tiny Home Design Features

Hartup Construction's tiny homes are designed to maximize comfort, functionality, and style within a compact footprint. Drawing on expertise in residential construction and property refurbishment, Hartup Construction creates modern living spaces that deliver exceptional value without compromising quality.

Key Design Features

Smart Space Utilisation

Open-plan living areas designed to maximize usable space.
Efficient floor plans that create a comfortable and practical living environment.
Built-in storage solutions to reduce clutter and increase functionality.

Modern Architectural Design

Contemporary external finishes including brick, cladding, and modern façade options.
Large windows and glazed doors to enhance natural light and create an open feel.
Stylish, low-maintenance materials selected for durability and appearance.

Fully Functional Kitchens

Modern cabinetry and storage solutions.
Quality benchtops and splashbacks.
Space-saving appliances integrated into functional kitchen layouts.

Contemporary Bathrooms

Compact yet practical bathroom designs.
Modern fixtures and fittings.
Efficient layouts that maximise comfort and usability.

Energy-Efficient Living

Energy-conscious design principles.
Efficient insulation and ventilation options.
LED lighting and modern building materials that contribute to reduced running costs

Customisable Designs

Flexible floor plans tailored to client requirements.
Options for granny flats, rural accommodation, guest lodging, or investment properties.
Ability to customize finishes, colours, fixtures, and layouts.

Quality Construction

Built using professional construction methods and quality materials.
Designed for durability and long-term performance.
Delivered with a focus on craftsmanship and attention to detail.
